No. 444-05PEDO/Jabori/DSM
Peshawar, dated: 03.09.2026

To

All Prospective Bidders / Applicants
Participated in the Pre-Qualification Process for
10.2 MW Jabori Hydropower Project Direct Supply of Electricity

Subject: **DISCONTINUATION OF EXISTING PRE-QUALIFICATION PROCESS AND RE-ADVERTISEMENT FOR DIRECT SUPPLY MODEL FROM 10.2 MW JABORIHYDROPOWER PROJECT**

Respected Applicants;

I am directed to refer to the Pre-Qualification Document (PQD) issued by the Pakhtunkhwa Energy Development Organization (PEDO) on 02 April 2026 and the applications submitted by prospective bidders in response thereto.

PEDO appreciates the participants' overwhelming interest in the supply of electricity through CTBCM framework. As per the CTBCM framework, ISMO is to administer the wheeling auctions, which is in process and has not been advertised by ISMO yet. If decided by the competent authority to move ahead in the supply of electricity from PEDO owned projects under the CTBCM framework, PEDO may invite the applicants and/or other interested parties to participate in the bidding process for such supply in accordance with the KP-PPRA procurement rules and other applicable regulations and procedures.

On the direct supply from the Jabori project, *the Competent Authority has decided to put the current prequalification process for CTBCM, on hold and invite applications afresh, exclusively under the direct supply mode for supply of electricity from the Jabori Project.* In this regard, PEDO will be inviting the applications for prequalification afresh in accordance with the Prequalification Document to be issued by PEDO.

PEDO, again, appreciates the interest and participation of all prospective applicants in the previous process and looks forward to their participation in the fresh solicitation for the Direct Supply of Electricity from the 10.2 MW Jabori Hydropower Project, upon its formal advertisement.

Yours faithfully,

Director Development -
Pakhtunkhwa Energy Development
Organization (PEDO)
Peshawar
